

Fully-Funded Graduate Research Assistantships Available in Supply Chain Management and Analytics

The Department of Supply Chain Management and Analytics (SCMA) in the College of Business at the University of Nebraska–Lincoln is recruiting to fill multiple fully-funded **Graduate Research Assistantship positions for the Fall 2024 semester**.

The assistantships are offered to students admitted to [Nebraska's Ph.D. in Business with specialization in Supply Chain Management and Analytics program](#). It provides students with valuable hands-on experience and opportunities to work one-on-one with faculty on their research, with the goal of publishing journal articles that will enhance their post-graduate career opportunities as university faculty or researchers.

Qualified candidates receive a competitive stipend and are considered for additional fellowships. Graduate assistants are eligible for tuition remission of up to 12 credit hours per semester as well as basic individual student health insurance during the academic year. The university subsidizes a significant proportion of the student health insurance premium.

Application Information

Students with higher education degrees in business, engineering, mathematics or any other relevant field with a strong math background can apply for the SCMA Ph.D. program. Students must have completed the following courses at their previous institution of higher education: calculus, linear algebra, statistics and intermediate microeconomics. In some cases, deficiencies in prerequisites can be addressed after admission to the Ph.D. program but prior to enrollment. SCMA Ph.D. students who possess a relevant MS, MBA or other master's degree in business or other relevant fields may transfer up to 21 credit hours of master's-level coursework.

[Apply online](#) by January 15 for fall enrollment. Applications must include a statement of purpose, professional resume, three letters of recommendation, academic transcripts and a GMAT or GRE score. International students will need to submit a TOEFL score.

About Our Community

The Department of SCMA teaches a variety of courses in Supply Chain Management and Business Analytics. As part of top ranked business programs, the department offers a variety of degree programs including undergraduate, graduate certificates, master's and Ph.D. Strong support for research and close proximity to the thriving business communities of Omaha and Lincoln help advance the research goals of the college's 125 faculty and 31 Ph.D. students, in an open, inclusive and collaborative community.
