

BATTEN COLLEGE OF ENGINEERING AND TECHNOLOGY
DEPARTMENT OF ENGINEERING MANAGEMENT AND SYSTEMS
ENGINEERING

November 14th, 2024

Dear Colleagues,

I hope this message finds you well.

The Department of Engineering Management and Systems Engineering has an opening for a Lecturer in Engineering Management and Systems Engineering with a start date of Fall 2025. We would greatly appreciate your assistance in circulating the ad within your network. Click [here](#) for a direct link to the ad on our website. This position is meant to support our Master Programs in the department.

While all specializations are welcome, we strongly encourage candidates with demonstrated experience in operations research, risk analysis, and model-based systems engineering to apply. Other areas of interest include healthcare systems engineering, critical infrastructure systems, machine learning and artificial intelligence,

Thank you in advance for your assistance.

Pilar

Pilar Pazos Ph.D.

Professor

Engineering Management & Systems Engineering

Old Dominion University

Engineering Systems Building

Norfolk, VA 23529
