(PhD in Decision Sciences and Engineering Systems)

We seek students with a strong background in engineering, mathematics, computer science, or other related fields. Admitted Ph.D students are supported in terms of tuition funding and an annual stipend to support their research and education. All applications received by December 15th, 2026, will receive full consideration. If you have questions about the application process, we encourage you to schedule an appointment with a virtual counselor <https://apply.rpi.edu/portal/meetings?tab=subtab>.

More information about our PhD program is available at <https://ise.rpi.edu/programs/decision-sciences-and-engineering-systems-phd>
